

Environmental Policy Statement

Last Updated: 12/07/2021

WGM Engineering Ltd. assess client needs to understand their requirements, provide service and products tailored to their needs covering the following specialist sectors:

- Servicing, repair, refurbishment and installation of mechanical and electrical equipment, including Ex rated apparatus.
- Sub-contract machining services.
- Supply of new equipment and parts.
- Project management, design and commissioning.
- Civil engineering and construction.
- Fabrication, assembly & installation of Structural Steel
- Coating of metal components
- Including fulfilling the roles of Designer, Principal Designer, Contractor, Principal Contractor as defined by the CDM regulations.

We recognise that our operations have an effect on the local, regional and global environment. As a consequence of this WGM Engineering, are committed to managing environmental performance and pollution prevention.

Environmental regulations, laws and codes of practice and any other requirements on the business will be regarded as setting the minimum standards of environmental performance.

The company will ensure the conservation of natural resources while minimising any adverse environmental impact from our operations, including, but not limited to, waste reduction and recycling.

All employees are made aware of this policy and their responsibilities for environmental issues.

The company operates an energy conservation policy to ensure that all non-critical equipment is switched off when not needed, and low energy electrical equipment will be preferred for purchase.

Through coordinated route planning WGM Engineering, seeks to realise the dual benefits of reduced fuel consumption and lower emissions. Trackers are fitted to our vehicles to assist with route planning and efficient operation of the vehicle.

WGM Engineering, will endeavour to perform business electronically, to reduce paper usage. Including, but not limited to the emailing of invoices and statements.

We will always seek to purchase products that are environmentally friendly, sustainable, re-usable, recyclable and that do not damage the environment.

Whenever possible, WGM Engineering re-uses or recycles incoming packaging materials.

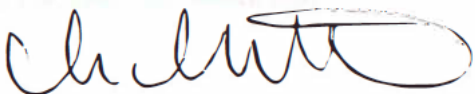

This policy statement is on display at the company premises and is made available to the public via our website.

The company has implemented a management system to:

- Assess the environmental effects of its policies and operations with the objective of preventing pollution, reducing environmental impact and where possible providing environmental benefits.
- Set and monitor environmental objectives and targets.
- Influence clients and suppliers of materials and services to adopt policies which are consistent with those of the Company and evaluate suppliers' environmental policies and performance.
- Evaluate new techniques that will provide benefit to the environment.
- Educating and motivating our workforce in order to minimise environmental impact of daily work.

Our management system underpins the Company strategy for sustainability and growth and demonstrates our commitment to:

- Provide a framework for risk management
- Establish, manage and review strategic objectives for the company
- Manage and control our activities that impact on the Environment
- Drive continual improvement throughout all areas of the business

Managing Director - Ian Mathieson
